

AT THE HEART OF LOCAL AND INTERNATIONAL

BUSINESS

The Eden Business Park is the most innovative and exciting business park to be developed on the Isle of Man, setting new standards of environmental efficiencies, build quality and design.

Set on the outskirts of the Island's capital Douglas, Eden Park is set on the southern side of the commercially important Cooil Road estate and is minutes from the City and business centre but with easy access to both sea and air transportation links. For new and existing businesses, Eden Park offers the opportunity to site their business in a prime location.

The design of the Phase 1 business units detailed in this brochure is strikingly different to traditional light industrial developments and incorporates the latest in energy efficiency and environmentally sound building practices. Not only will this help mitigate rising fuel costs but it will also make a powerful statement to businesses customers.

SANITARY PROVISIONS

- A single WC is provided for each unit which can be adapted for disabled use together with services connection for a kitchenette to be installed by the tenant.
- Each unit is provided with an electric instantaneous water heater to provide hot water to taps

SERVICES

- Mains services are brought into the building including electrics, gas, water, drainage and telecommunication duct infrastructure
- · Artificial lighting within units is provided by fluorescent luminaires with prismatic diffusers to achieve standard lighting levels.
- A basic general power and lighting system is installed in accordance with the latest edition of BS7671 Wiring Regulations. Each Unit has its own metered electricity
 supply. A 3 phase electrical supply is provided to each unit. The tenant is permitted to adapt the services system within their unit subject to approval from the landlord
- . Units are not provided with heating system but could be installed by the landlord by negotiation. This is to maintain maximum flexibility of unit layout.
- Each unit is fitted with a basic fire alarm system prior to occupancy. Upon occupancy, tenants are responsible for upgrading /modifying the fire alarm to suite their specific unit layout.
- An external lighting system is installed to maintain a minimum lighting level in accordance with CIBSE Guide for lighting LG6. The system consists of a mixture of column and building mounted luminaires. Tenants can provide additional lighting around their units, at their own costs and subject to approval.

EXTERNAL WORKS

- Car parking areas and pedestrian foot paths are in concrete payiors. Each unit is provided with 4 no. car parking spaces.
- All hard paved areas are drained.
- Features leafy & feature landscapes.

APPROVED USES

The development has planning approval for all of the following uses:

Class 5 Research and Development, Light Industry

(a) for research and development of products or processes, or (b) for any industrial process, being a use which can be carried out in any residential area without detriment to the amenity of that area by reason of noise, vibration, smell, fumes, smoke, soot, ash, dust or grit.

The Landlord's aim is to maintain a high quality business environment to the benefit of all occupants. Whilst some proposed uses may not strictly be in accordance with the above description, the planning department may be amenable to a planning application to accommodate these uses. Planning application for alternative uses should not be submitted without the Landlord's agreement.
